Freshmen Connection 2019 Course Recommendations

Students interested in a Physical Therapy program

Note – the University of Maryland does not offer a Physical Therapy degree. You must select a program from the list of majors offered at the University of Maryland (Kinesiology is a popular choice). You may register for up to 17 credits.

Recommended Fall courses for students interested in a Physical Therapy program:

- BSCI170/171
- STAT100
- UNIV100

Other courses to consider for students interested in a Physical Therapy program:

- KNES287 or KNES293 (if you plan on majoring in Kinesiology)
- PSYC100
- CHEM131/CHEM132
- 1 or 2 General Education requirements: AW, MA or AR, OC, HU, SP, IS (see [Courses by General Education Requirement sheet](#))
- Students with a strong math or science background may also considering taking CHEM 131 and CHEM132 during the fall semester

Restricted Fall courses for students interested in a Physical Therapy program: (do **not** take the following)

- General Education requirements: NL (other than CHEM131/132 and BSCI170/171), NS

- 1) We strongly recommend reviewing the [Physical Therapy information](#) available from the Reed-Yorke Health Professions Advising Office.
- 2) If you are taking AP/IB exams or bringing in Transfer Credit, visit the [University's Transfer Credit Services](#) to see how your credits will transfer. You may be bringing in credit for a required/recommended course. If this is the case, do NOT take the course at the University of Maryland.

Example: If you anticipate receiving a 4 or 5 on the AP Biology exam, do NOT enroll in BSCI170/171 even if it is listed as a "Recommended" course above.

- 3) Times and course descriptions for all classes may be found on the [Schedule of Classes](#). You will need to make sure that the courses you choose are open and that the times do not conflict (you can download a schedule worksheet [here](#)).
- 4) If a mathematics course is required, choose the course that seems like the best fit based on your level of high school math. If more than one math course is listed, include the lower-numbered course as an alternate in case you do not test into the course of your choosing.

Students may also access the [UMD Math Testbank](#) to review prior years' final exams, answer keys and syllabi.

If a course you choose has a mathematics prerequisite (such as BSCI170/171), you MUST list an alternate course.

- 5) If a course is required for your intended major, include it on your enrollment form even if it appears closed. Be sure to list an alternate course.
- 6) Once you have chosen sections of the above courses that do not conflict, include them under the Primary Course Request and Alternate Course Request table on the [FC Enrollment Form](#).
- 7) Your Course Request will be reviewed by an academic advisor and you will be contacted by e-mail if there are any issues with the courses you have chosen. If you need additional assistance choosing classes, please contact an advisor at 301.405.7762 or fc@umd.edu. In-person and phone appointments are available Monday through Friday 9:00 am – 4:30 pm.
