UNIVERSITY OF MARYLAND
OFFICE OF EXTENDED STUDIES

Accounting for Transfer Credits Worksheet

Review Transfer Credit Services information at http://transfercredit.umd.edu.

Prior Learning Credit (AP, IB, CLEP, etc.): https://www.transfercredit.umd.edu/plc.html

- Use the appropriate chart to determine scores needed for any credit and course equivalency.
- Still taking AP exams or haven't finished a course? That's okay, you can note your anticipated score/grade.

Transfer (another institution): https://app.transfercredit.umd.edu/

- Use the Transfer Course Database to find course equivalency.

Below is a chart to help you track this information and will be helpful to build your schedule and complete your enrollment form. The first two are examples of how you could complete the chart from using the information above.

Note: This information on the enrollment form helps an advisor review and determine if you should make adjustments to your requested fall schedule. You MUST still send your scores/credit to the University for your official record to be updated. See the instructions provided by Transfer Credit Services.

Type	Course/Subject	Grade/Score	Equivalency
AP	Microeconomics	4	ECON200 (DSHS)
Transfer	EGL1100 – Prince George's CC	B-	FSAW (no course title equivalency, but fulfills a General Education requirement)

How do you see if your transfer credit posted to your record? Log on to Testudo (www.testudo.umd.edu) and view your "Unofficial Transcript." If you do not see your transfer credit, then there's a good chance UMD has not received it.

Unsure about all of this? You can e-mail an advisor with questions or schedule an appointment with an advisor by e-mailing fc@umd.edu. Always be sure to include your name and UID number!
